User Manual

There are 4 navigation links on the index/home page. Following are the functionalities of each tab:

1. **Search Books**
   The user can search book from the database by typing the keywords into the search box provided and clicking the search button.
   If the keyword matches the records into the database, the result is displayed in the tabular format.
   On clicking the row of the table, the user can proceed to **checkout** if the book is available by providing the card id.

2. **Check in Books**
   First the user need to search for the record by providing the keyword into the search box and clicking the search button.
   After the results are fetched, on selecting the required row, user can check in the book.

3. **Pay Fines**
   On clicking the refresh button, the user can see the total summed fines of the borrower based on their card id. On clicking the required row, the user can pay the fines.

4. **Add Borrower**
   By filling the form and clicking on submit button, the user can add borrower into the database.
